TO WHOM IT MAY CONCERN

I am pleased to provide this letter of recommendation for Mr. Rony Barua, who served as a Trainer in the Government of Bangladesh's Enhancing Digital Government and Economy (EDGE) Project, a World Bank-funded national initiative administered by the ICT Division and coordinated through Jagannath University.

Mr. Barua contributed significantly to the Software Quality Assurance (SQA) module of the Digital Leadership Academy, where he delivered high-impact training sessions at Jagannath University, Uttara University, and IUBAT (International University of Business Agriculture and Technology). During his tenure, he successfully trained all Computer Science and Engineering (CSE) students enrolled under the EDGE initiative at these institutions.

His instruction covered a range of essential software testing topics, including test case design, defect tracking, test management, automation frameworks, and software quality process workflows. In addition, Mr. Barua integrated forward-looking modules on AI-based testing and cybersecurity fundamentals, preparing students to work with emerging technologies. He also emphasized the strategic business value of QA, helping students understand how software quality assurance contributes to revenue generation, operational efficiency, and customer retention in modern tech-driven organizations.

More than 100 CSE students benefited from his structured, industry-aligned training. His sessions consistently earned a satisfaction rating of more than 85%, as recorded on the official EDGE platform (<https://training.edge.gov.bd>). Feedback from students highlighted Mr. Barua's clear instruction, practical focus, and ability to connect classroom content with real-world QA challenges.

Mr. Barua's role in this national initiative demonstrates both his technical excellence and his commitment to workforce development in the IT sector. His ability to deliver impactful training at scale has contributed directly to Bangladesh's ongoing digital transformation goals.

Please feel free to contact me for any further information.

Sincerely,

Professor Dr. Mohammed Nasir Uddin
Coordinator
EDGE-JNUCSE Digital Skills Training
